

Henry Chiu

IP Solution Consultant
Intellectual Property & Science
Thomson Reuters

Henry Chiu is a solution consultant of Intellectual Property & Science of Thomson Reuters. His main responsibility is to identify the scope of a variety of IP and Brand Protection matters. He has worked on many service projects including competitor benchmarking, license in/out, patent portfolio assessment, technology landscaping, patent search and trademark screening globally by leveraging IP big data, expertise and insights to help key leaders making decisions with confidence using actionable intelligence. He is also a trainer who designs and implements training modules to the experts from corporate, law firm, government agency and academic institution providing 30+ training programs per year.

Before joining Thomson Reuters, Henry worked at the in-house IP department of a global technology company and started his IP career from Taiwan Intellectual Property Office (TIPO). Henry has a Master degree in Mechanical Engineering from National Taiwan University.
